**Subject:** RE: transferring CMAQ funds to VCR trail project

Good morning everyone:

Just wanted to provide some updates to this situation after having a chance to speak with both the City and Andy about this; first off let me clarify the projects and amounts involved. The City of Fredericksburg (based on our meeting with Doug Fawcett last Thursday) is seeking to transfer \$250,000 in FY13 CMAQ from UPC 100451-RTE 1 Signal Optimization to UPC 91174-VCR Trail in order to award Areas 1 and 2 of the VCR Trail for Construction. This will leave \$425,000 in FY13 CMAQ on UPC 100451-Rte 1 Signal Optimization. Based on our discussions with the City, this is enough funding to cover additional work under this UPC and any future transfers to or from this UPC (such as from the district wide signal UPC mentioned below) would only be to swap out funding based on the type but we would not be adding any funds to the total allocations.

We support the transfer request to move funds from UPC 100451 to UPC 91174 but understand the decision on whether or not to place on today's or next month's policy committee agenda is up to the MPO staff. If anyone has any questions or needs additional clarification, please do not hesitate to call me.

Thanks,

Jason

Andy, Rodney,

I never know who to send this stuff to so include you both. We were short 275,000 for the VCR contract about to be awarded for construction of phases 1 and 2 (the 3<sup>rd</sup> phase is not yet funded). VDOT has a pot of \$ for signalization, which can only be used for signalization, so they said we should pull 275,000 from our Route 3 signalization project (UPC100450) and transfer it to the VCR project. They (VDOT) will then replace that amount with their funds that can only be used for signalization. We need to get this on the FAMPO agenda for Tech and Policy next month. Let me know what you need from me. Otherwise I will trust to your magical talents...
