

Top bottlenecks in Fredericksburg area

Posted: Monday, September 30, 2013 4:16 am

Here is a list of the area's worst bottlenecks, according to statistics from July, as compiled by the Fredericksburg Area Metropolitan Planning Organization.

Interstate 95

1. Southbound at the Rappahannock River bridge

Average duration of bottleneck: 3 hours and 14 minutes

Average maximum length: 17.5 miles

Number of bottlenecks: 69

2. Northbound at the Stafford Courthouse exit

Average duration: 5 hours and 6 minutes

Average maximum length: 27 miles

Number of bottlenecks: 19

3. Southbound at the Stafford Courthouse exit

Average duration: 2 hours and 18 minutes

Average maximum length: 8.9 miles

Number of bottlenecks: 40

4. Southbound at the Massaponax exit

Average duration: 3 hours and 12 minutes

Average maximum length: 19.1 miles

Number of bottlenecks: 11

U.S. Routes

1. Southbound U.S. 17 at the I-95 exit, including southbound ramps

Average duration: 41 minutes

Average maximum length: 1.73 miles

Number of bottlenecks: 152

2. Southbound U.S. 1 at Courthouse Road (Stafford)

Average duration: 1 hour and 17 minutes

Average maximum length: 4.2 miles

Number of bottlenecks: 29

3. Northbound U.S. 17 at Berea Church Road

Average duration: 25 minutes

Average maximum length: 1.9 miles

Number of bottlenecks: 199

State Routes

1. Eastbound State Route 3 at the I-95 exit

Average duration: 28 minutes

Average maximum length: 1 mile

Number of bottlenecks: 221

2. Westbound Route 3 at Salem Church Road

Average duration: 40 minutes

Average maximum length: 1.3 miles

Number of bottlenecks: 80

3. Westbound Route 3 at the I-95 exit

Average duration: 25 minutes

Average maximum length: 0.9 miles

Number of bottlenecks: 177

By FAMPO's calculation, those delays caused by the bottlenecks cost drivers in the neighborhood of \$5.428 million.
