

Update on I-95 Corridor Study Phase 1

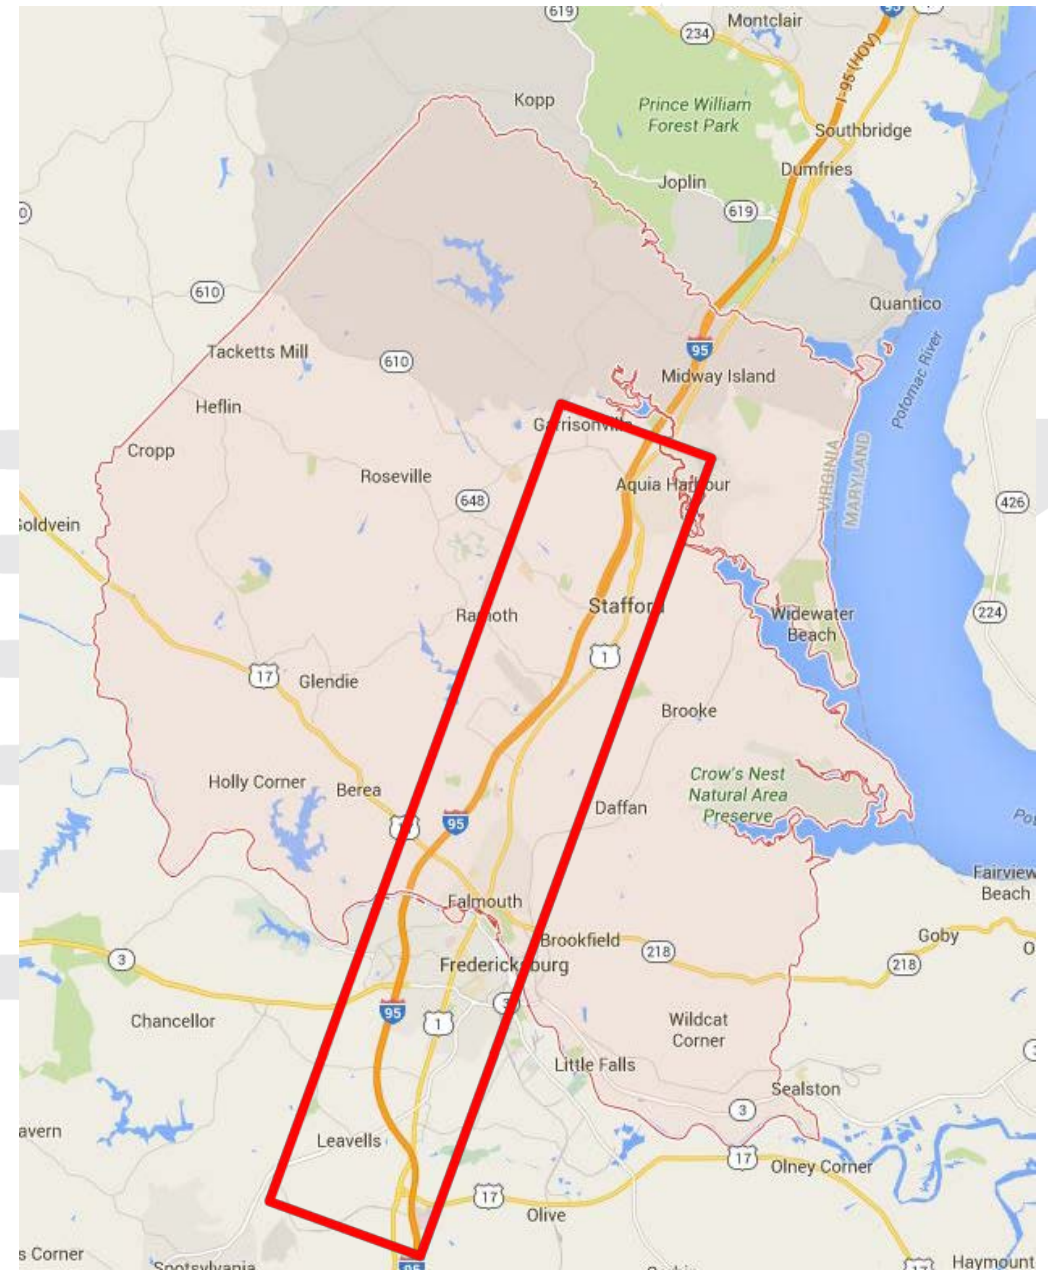

Study Purpose: Background

1. Severe, reoccurring traffic congestion along I-95 Corridor from Quantico to Massaponax Area
2. Scarce Transportation Funding for Major Projects Outside of HB2
3. Upcoming 2nd Round of HB2 Schedule requires HB2 ready projects by July 2016
4. Need to determine what I-95 project(s) should be submitted for next round of HB2

Phase 1 Objective

To develop an improvement program to address the needs of the I-95 corridor between milepoint 145 in Stafford County and milepoint 125 in Spotsylvania County for the year 2040 by June, 2016

Improvements limited to I-95 and Park and Ride lots near I-95 interchanges for Phase 1.

Study Area

Quantico to Thornburg: Mpt 149 to 117

Targeted Improvement Area: **Mpt 145 to 125**

Advisory Committee (AC)

I-95 Corridor Evaluation Advisory Committee

Jurisdiction	Primary	Alternate(s)
City of Fredericksburg	Doug Fawcett	
Spotsylvania County	Ed Petrovitch	
Stafford County	Keith Dayton	Chris Rapp
CTAG	Guy Gormley	Fran Larkins and Rupert Farley
Chamber of Commerce	Kasey <u>Nabel</u>	
Caroline County	Angeline Crowder	
King George County	Linwood Thomas	
VDOT	Annette Adams	Marcie Parker
PRTC		
DRPT	Tim Roseboom	Christopher Arabia
FHWA	Elliott Moore	Cheng Yan

Upcoming Schedule

February:

Identify Corridor Deficiencies

Develop Purpose and Need Statement

Begin process of identifying potential alternatives

Begin documenting existing and 2040 future no build conditions

Next AC Meeting: #2 on February 29th

Schedule: March through June

March: Finalize Alternatives for Modeling Evaluation

1. Budget allows for a maximum of 5 Alternative Scenarios and Future No Build
2. Screening of pool of potential concepts to 5 Alternative Scenarios

April: Evaluate the effectiveness of Alternatives

1. Develop Draft Study Results
2. Start Outreach to Stakeholders on Draft Study Results

May: Development of a Preferred Alternative

1. Complete Outreach to Stakeholders on Draft Study Results
2. Possible revision of some modeling scenarios based on feedback
3. Screening of 5 Alternative Scenarios to a Preferred Alternative

June: Finalize Study Documentation

1. Summary of Study Project Recommendations (Late June)
2. Full Study Technical Report (June 30th)
