**Subject:** Fwd: I-95 Study Traffic Volume Question

Good morning,

Please see the response from Ben Mannell, PM for the I-95 Study. There is a mixture of analysis periods ranging from the full-week (labeled "A", which only applies to slide 30), the work-week (labeled "B", slide 17 and slides 24-27), and the mid-work-week (Tu-Th, labeled "C", slides 6, 31-32 and 34).

Please let me know if you have further questions. Thank you.

Good morning Stephen,

Based on the Fredericksburg presentation, this is what I have:

Slide 6- C  
Slide 17- B  
Slides 24-27- B  
Slide 30- A  
Slides 31-32- C  
Slide 34- C

The FAMPO Policy Committee has posed a question regarding the data utilized in the I-95 Study which is best expressed as relating to the slide presentation from the second citizens information meeting. For all slides containing traffic volume data, which of those slides contain data ranging from (A) Sunday to Saturday, which contain data from (B) Monday to Friday and which contain data from (C) Tuesday to Thursday?

Thank you.
