

FINAL REPORT
CHAPTER OUTLINE

Title: FAMPO Intraregional Multimodal East-West Mobility Study

FAMPO Intraregional Multimodal East-West Mobility Study

Final Report Outline

- I. Background (Purpose & Goals)
- II. Methodology
 - Methodology overview
 - Data Collection and Previous Studies
 - Stakeholder Participation Program
- III. Existing Conditions
 - Baseline Conditions: All modes
 - Identifying Specific Corridors and Needs
- IV. Future Transit Demand
 - Future Demand Methodology and Forecasts
 - Potential Transit Markets
- V. Transit Initial Proposals
 - Development of Future Transit & TDM Proposals
- VI. Refinement of Transit proposals
 - Testing and Refinement of Future Transit & TDM Proposals
 - Potential Implementation Requirements
 - Cost and Revenue Projections
 - Transit Proposals, Alternatives and Recommendations
- VII. Final Transit Recommendations
 - Transit Recommendations: Public Participation
 - Final Transit Report with Recommendations
- VIII. Roadway & Active Transportation future Demand
 - Roadways: Future Demand Methodology and Forecasts
 - Roadway Corridor Scenarios Development

- IX. Roadway Proposal development and refinement
 - Testing and Refinement of Roadway Proposals and Alternatives
 - Implementation Considerations
 - Cost, Revenue, and Subsidy Projections
 - Draft Roadway and Active Transportation Alternatives Report

- X. Roadway and Active Transportation final recommendations
 - Roadway/ Active Transportation Recommendations: Public Participation
 - Final Roadway & Active Transportation Report

- XI. Transit Corridor Concept Engineering

- XII. Roadway Corridor Concept Engineering
